29. (Unclassified - GLC) ADMINISTRATIVE Called Tim Hardy, White House staff, to touch base with him on the matter of destruction of records. I told him that, as he probably knew, we are receiving quite a bit of flack from the Hill about the letters we sent to Senators Hugh Scott (R., Pa.) and Mike Mansfield (D., Mont.) on this subject under a misunderstanding of our intent. I said we planned, at this time, to destroy only routine administrative, personnel and other type files that we put under the moratorium because we froze everything. I added that we are in touch with Chairman Daniel Inouye's Senate Select Committee on Intelligence and the National Archivist. Hardy said this all sounded reasonable to him. He will advise Jack Marsh and call me back.

30. (Unclassified - GLC) LIAISON Per the Director's instructions, I met with Chairman Daniel Inouye (D., Hawaii) and Senator Howard Baker (R., Tenn.). (See Memo for the Record.)
